

**ONLINE Keynote talks**  
***Nutrient Cycle in the Arctic linked to environmental change***  
**21-22 October 2020**

Be aware the times are given in UTC, so make sure to find out how this converts to your local time

Meeting links have been sent to all registered participants

**Wednesday 21<sup>st</sup> October 2020**

All times in UTC

08:15 – 09:00	<i>Speakers can log-on and test the online meeting platform GoToMeeting</i>	
09:00 – 09:15	Welcome and Introduction	Angela Augusti, CNR, Italy
09:15 – 10:00	Dust in polar regions and its importance for nutrient cycles	Pavla Dagsson-Waldhauserova, Agricultural University of Iceland, Iceland
10:00 – 10:45	Nutrient dynamics and their control of the biological production in the Kongsfjorden coastal system	Fran Gordillo, University of Malaga, Spain
10:45 – 11:00	<i>Break</i>	
11:00 – 11:45	Nutrient dynamics in glacial meltwaters entering	Andy Hodson, UNIS, Norway
11:45 – 12:30	Transport, deposition and fate of atmospheric nutrients in the Ny-Ålesund region.	Mats Björkman, University of Gothenburg, Sweden

**Thursday 22<sup>nd</sup> October 2020**

All times in UTC

08:15 – 09:00	<i>Speakers can log-on and test the online meeting platform GoToMeeting</i>	
09:00 – 09:45	The effect of trophic interactions on terrestrial nutrient cycles	Maarten Loonen, University of Groningen, The Netherland
09:45 – 10:30	Nutrient inputs by marine vertebrates are a major driver of polar terrestrial biodiversity hotspots	Peter Convey, BAS-NERC, UK
10:30 – 10:45	<i>Break</i>	
10:45 – 11:30	Abiotic and biotic driven nutrient exchanges in a high-latitude fjord - towards the quantification of Net Ecosystem Metabolism	Pedro Duarte, Norwegian Polar Institute, Norway
11:30 – 12:00	Discussion	Carlos Jimenez, University of Malaga, Spain
